Skin Space Brings Advanced Medspa Treatments to Long Island with Grand Opening of Massapequa Office

Massapequa, New York - Skin Space, a new medspa offering cutting-edge, beauty-enhancing treatments, has opened its doors in Massapequa, New York.

SKIN SPACE

Long Island, New York May 9, 2023 (Issuewire.com**)** - Skin Space is dedicated to helping clients achieve their desired results through customized skin and body treatments tailored to their unique needs and goals. Skin Space's team of highly trained and experienced estheticians and injectors specializes in a wide range of services, including facial treatments, body treatments, injectables, and laser treatments, all in a centrally located modern Long Island medical office. Their advanced technology ensures that clients receive top-of-the-line treatments that produce effective results.

According to industry data, the demand for Medspa services has been growing steadily in recent years, as more people seek non-invasive cosmetic treatments to enhance their appearance and boost their confidence. In fact, a recent survey found that over 70% of Americans are interested in trying medspa treatments. Skin Space is proud to be at the forefront of this trend, offering the latest in beauty-enhancing treatments to help clients look and feel their best. With its commitment to personalized care, cutting-edge technology, and luxurious environment, Skin Space is poised to become a medspa leader on Long Island.

"We're excited to bring Skin Space to Massapequa and offer our clients the latest in beauty-enhancing treatments," said founders, Alla Meyer and Tatyana Agron. "Our mission is to help our clients look and feel their best by providing personalized care and attention, and we're committed to delivering top-notch service in a luxurious and comfortable environment."

Skin Space's services include customized facial treatments that may include chemical peels, microdermabrasion, or dermaplaning; body treatments that may include cellulite reduction, body contouring, or laser hair removal; and injectables such as Botox and dermal fillers that help reduce the appearance of fine lines and wrinkles or add volume to areas like the lips or cheeks.

The spa's laser treatments are also highly effective in addressing a variety of skin concerns, such as sun damage, age spots, wrinkle repair, and acne scars. Skin Space uses state-of-the-art technology, including in-demand non-surgical treatments using Venus Versa™ and TriBella™, to ensure that clients receive the best possible results.

As part of their grand opening, a ribbon-cutting ceremony is scheduled for Tuesday, May 23, at 10 a.m. at Skin Space. Additionally, Skin Space is currently offering all new patients 20% off their first treatment, as well as offering referral incentives, unique Mother's Day packages, and additional medspa promotions.
